## About Me

I'm Pudami Devid Raju from Hyderabad, a 3rd-year B.Tech student at IIIT Bhagalpur. My passion lies in creating engaging and visually appealing web experiences while ensuring they are functional, fast, and user-friendly. Over the years, I have honed my skills in HTML, CSS, JavaScript, and modern frontend frameworks. I also enjoy solving coding challenges that enhance my problem-solving mindset, and I believe every project is an opportunity to learn and grow. Outside of coding, I enjoy reading, listening to music, traveling to new places, and engaging in meaningful conversations that spark creativity and insight.
